## Lucky Chinese Food Approaching 20 Years in Santee

After a successful opening of its first restaurant in El Cajon in 1992, Lucky Chinese Food opened its second location in the heart of Santee in June of 1996 at the corner of Cuyamaca and Mission Gorge, between Discount Tire and CVS. What began as a humble Chinese takeout place has now, almost 20 years later grown into a takeout and full service sit-down restaurant with a new expanded menu.

The restaurant is a unique mix of fast-casual and full service sit-down. When you walk in, the left side of the restaurant serves up hot food in steam tables for quick takeout, and the right side offers customers the choice to sit down and enjoy a full menu with waitresses ready to serve. Master Chef Lee and his brother have a combined 60+ years of experience in a Chinese restaurant kitchen and have worked hard to put together a delicious menu mix of both popular and traditional dishes, like grilled Teriyaki Chicken and Seafood Chow Fun. Chef Lee's style of cuisine is Szechwan Cantonese and his signature sauces can best be described as being simple, savory, and well balanced.

Lucky Chinese Food underwent a complete makeover and remodel in 2014, adding a larger dining room that can now accommodate groups and parties of 20 or more. There are additional plans to add 12 draught beers on tap (local Santee beers included!) and wine this summer.

The ownership team and staff are grateful that they have been able to serve fine Chinese food to the residents and businesses of Santee for almost 20 years at the same location. They know that they could not have been in business for this long without the support and patronage of their most loyal customers, and for that they want to say thank you.
